SUBJECT:

OTR Emergency, Contingency and War Plan

1. Your paper has been read by the DD/I War Planning Officer and the undersigned. We both would agree with the concepts you marked with red pencil.

2. As an overall comment we feel that the planning is unrealistic in the event of nuclear war in that the sites to be used for emergency training will all be impossible to use because of fall-out.

3. With respect to the training of DD/I personnel we doubt whether we would be able to make 250 people available for training on D-Day or 1500 available on D+180. For the same reasons it is extremely doubtful that we will have available on-duty personnel to act as instructors. It is very difficult to offer substitute figures but if there is time for any training at all in the early stages of an all-out war the above figures should probably be divided by 10. *

4. We will be glad to review your Annex E after it has been drafted.
